## CALCULATE THE POINTS

In lacrosse, a player earns points by adding up their goals and assists. Help us calculate the number of points each of these players earned during our game on Mar. 7,2020.

| PLAYER | GOALS | ASSISTS | POINTS |
| :--- | :---: | :---: | :---: |
| Connor Fields | 3 | 3 | 6 |
| Wes Berg | 2 | 6 |  |
| Zach Greer | 3 | 5 |  |
| Austin Staats | 2 | 5 |  |
| Casey Jackson | 5 | 2 |  |
| Kyle Buchanan | 2 | 6 |  |

BONUS: How many total points did these players score during this game? $\qquad$

Goalies are measured by how many times the other team shoots on their goal. When a shot goes in, the other team scores a goal. When a goalie stops a shot from going in, it is called a save. During the March 7,2020 game, Frankie Scigliano had 25 saves, and allowed 6 goals. How many shots on goal were there?

BONUS: What was Frankie's save percentage?
Hint: Save percentage equals saves divided by shots on goal.
